Re: Water Availability – 71 Harkney Hill Road, Coventry

Dear Mr. King,

In response to your request dated April 16, 2025, regarding water availability at 71 Harkney Hill Road, Coventry, please be advised that a 12-inch ductile iron water main exists along the frontage of the property.

Water service will be made available, contingent upon the ability of the system to meet the project's demands and full compliance with all regulations of the Kent County Water Authority (KCWA) and the Rhode Island Department of Environmental Management (RIDEM).

A complete design application, as outlined in Part III of the KCWA Rules and Regulations, is required. This application must include detailed water demand requirements and site plans for the proposed development.

Please feel free to contact our office with any questions or for further clarification.

A copy of the KCWA rules and regulations are available online www.kentcountywater.org.

Please feel free to call should you have any questions regarding this matter.

Very truly yours,
Kent County Water Authority
